## SUMMARY

Dedicated and knowledgeable tutor with experience supporting high school students enrolled in college level courses such as College Algebra, Chemistry, and Trigonometry. Skilled at breaking down complex concepts into clear, approachable lessons that build both understanding and confidence. Proven ability to foster academic growth through strong communication, personalized instruction, and mentorship. Adept with educational technology and digital learning tools, with a strong foundation in math, science, and academic writing. Passionate about helping students succeed in challenging environments by giving a welcoming place to ask questions and receive academic help. Currently pursuing a Chemistry major at Chemeketa Community College while continuing tutoring and academic support work.

## EXPERIENCE

### Santiam Junior/Senior High School

September 2024 - Present

- Tutored high school students enrolled in college-level courses such as College Algebra, Chemistry, and Trigonometry.
  - Greatly improved students' understanding of covered concepts.
  - Helped students bridge the gap between high school and college expectations by reinforcing critical thinking, academic writing, and time management skills.
  - Provided mentorship on navigating college style coursework, including note taking strategies, syllabus breakdowns, and instructor communication.
  - Provided students a welcoming environment where they felt encouraged to ask questions.
- 

## SKILLS

### Teamwork and Communication

- Strong interpersonal communication skills developed through one-on-one tutoring sessions.
- Experienced in collaborating with students and educators to align academic strategies and expectations.
- Skilled in active listening and providing constructive feedback to encourage student confidence and growth.
- Adaptable and empathetic, with the ability to adjust tone and teaching style to different learning personalities and environments.
- Comfortable leading both in-person and virtual sessions with clarity, patience, and professionalism.

### Technical Tools

- Comfortable with online tools such as Microsoft Office and Google Workspace.
- Very proficient in computer literacy.
- Proficient in educational technology platforms such as Google Classroom, Zoom, and Canvas.
- Comfortable using graphing calculators, math visualization software (Desmos, GeoGebra), and online simulations for science instruction.

### Tutoring

- Able to break down complex concepts into digestible steps, using analogies, guided practice, and Socratic questioning.
- Experienced in helping students build academic habits, such as time management, notetaking, and independent study techniques.
- Knowledgeable in differentiated instruction and scaffolding techniques for learners with varied academic backgrounds and learning needs.

### Academic Proficiency

- Able to work under stressful and intense workloads.
  - Strong academic understanding of chemistry and mathematics.
  - Familiarity with college expectations, including MLA formatting and academic integrity standards.
- 

## EDUCATION

### Chemeketa Community College

September 2024 - Present

- Current Chemistry Major

### Linn Benton Community College
